DETAILED ACTION

Claims 12-21 have been canceled. Therefore, claims 1-11 and 22 are currently pending in this application and allowable as discussed below.

Double Patenting Rejection

Claim 22 was rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 11 of U.S. Patent No. 6,699,887 B2. On 25 August 2006, Applicants filed a terminal disclaimer to obviate the double patenting rejection. The terminal disclaimer was correctly filed and therefore the double patenting rejection of claim 22 is hereby withdrawn.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The present application is a divisional of U.S. Application No. 09/956,656, now U.S. Patent No. 6,699,887. The compound claims were allowed in '656 and the method of use was restricted. Since the method claims of the compounds are of the same scope as the allowed compounds and no prior art was found to reject the claims of the present application, claims 1-11 and 22 are allowable.
